GRIDZILLA

A grid signal for home batteries, cars and heat pumps.

Mathew Stafurik · Peter Mikeška · Matthew · Tedi

Grid-Serving Storage · Energy Bridge Vienna 2026

Europe's largest battery is in people's basements.

The grid can use none of it.

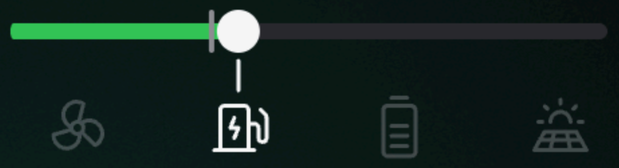

Slovakia

0 signals

from the grid operator
to home batteries

Germany

4.2 kW

the operator may dim
one new charger to this

Ukraine

3 GWh

of home batteries, idle
through the blackouts

The storage exists. The signal does not.

Same message at noon

“This street, next three hours, give at most 2 kW per house.”

Battery

Victron

or GoodWe, any brand

Battery soaks up the sun

Heat pump

Viessmann

Hot water heats from the sun

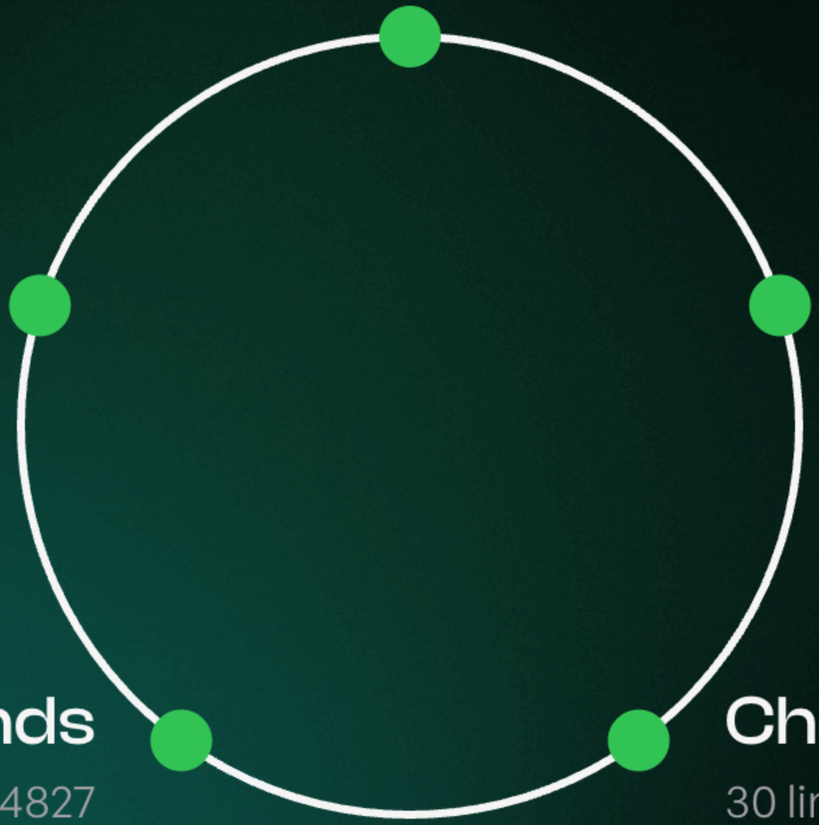

Any brand

Car charger

Car charges from the sun

The operator asks. The house decides. The owner can always say no.

The loop, every 15 minutes.

Gathers

72 transformers, the weather, the plan, every reply

Thinks

The AI writes the message in 2.3 s

Checks

30 lines of plain rules, not AI

Signs and sends

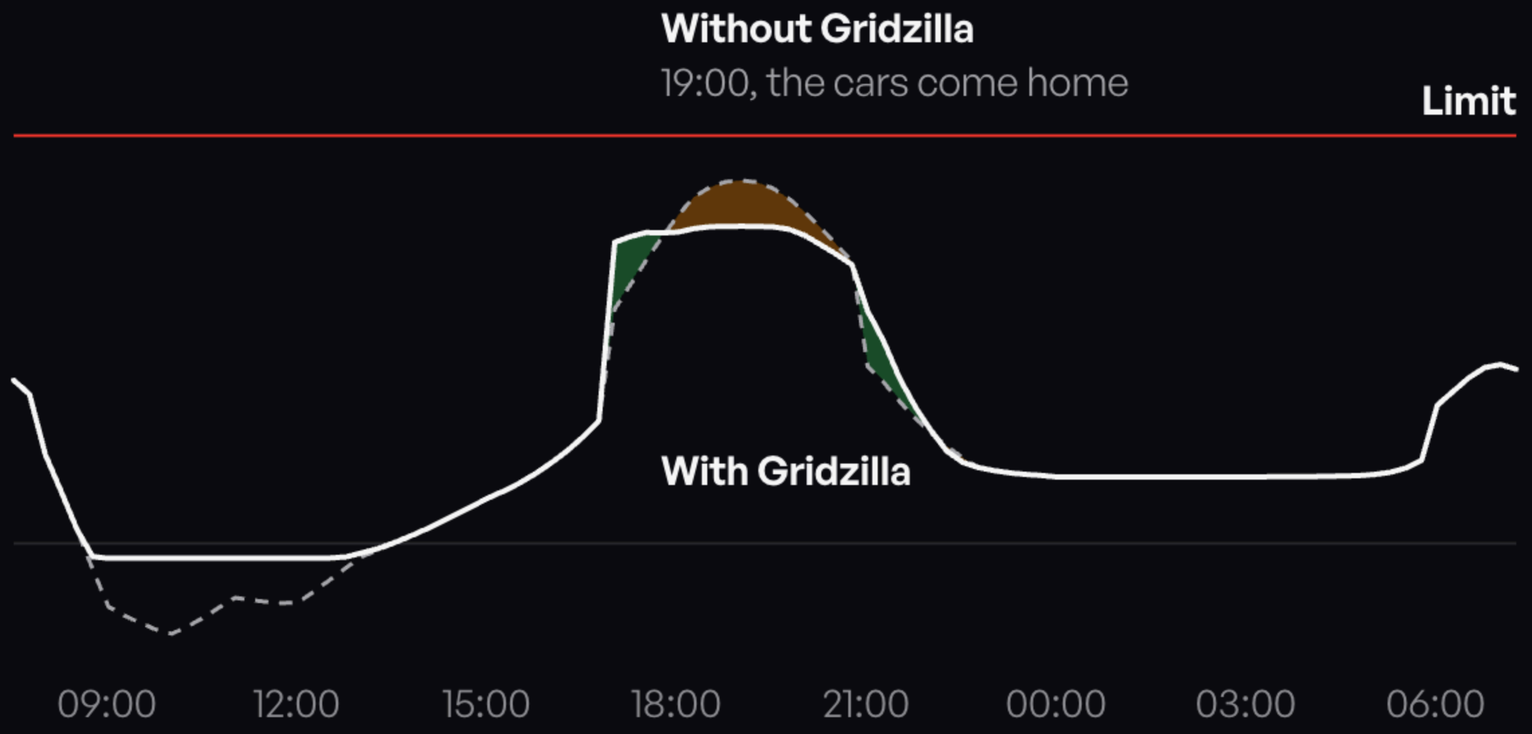

The platform signs message #4827

Houses reply

271 homes answer, all signed

The monster eats peaks.

Every street, every evening.

78%

with Gridzilla, tonight's plan down from 89 % without it

The next 24 hours for Vienna: 2,168 homes, renewed every two hours from the real weather. Live.

Saved tonight

3.4 MW
off the city's evening peak

83 kW
kept off the grid right now

2 of 2
streets kept inside their limit

10,419 kWh
car charging moved into the night

What we did

6
signals signed today

64
houses following a signal now

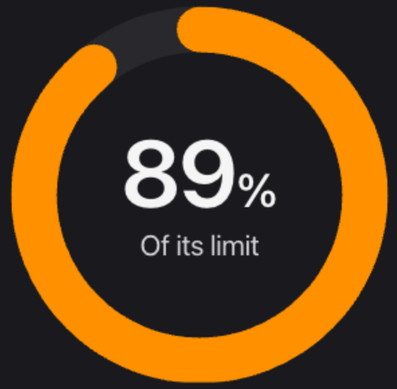

Nordbahnhof

Brigittenau street transformer · limit 400 kW

Gridzilla is holding Nordbahnhof inside its limit until 09:48.

With Gridzilla · Without · Peak eaten · Charging moved · The plan · Limit · Signal until **09:48**

What just happened

All events

07:32 AI proposed Use your battery on Nordbahnhof 72 · guard passed · signed #4828 · 40 of 40 houses applied

07:12 AI proposed Use your battery on Simmering 28 · guard passed · signed #4827 · 24 of 24 houses applied

06:32 Held back Use your battery on Vosendorf 9 · Daily limit reached: at most 48 signals a day

Our family home in Blatnica

Victron battery waiting	Home at the meter waiting
Car charger waiting	Viessmann heat pump waiting

Blatnica: waiting for the plant

Signed
by the platform, one message

Checked
by the plant, signature first

Followed
by the battery and heat pump

Real end to end. The planning runs on the fleet.

A simulated Vienna

Two thousand houses, the same cars with and without Gridzilla, realistic charging.

72 street transformers in a simulated Vienna, live

70 inside the limit · 2 near it · 0 over

−31%
one street
Speising, 574 to 398 kW

−5.2 MW
Vienna
2,184 houses, 26.6 to 21.7 MW

0 kW
a street
where no car charged

Measured on the simulated fleet, 24 Oct 2026

It eats peaks for breakfast.
